

## **APPLE PARK HEADQUARTERS** Student's version

5 :54 mn

1. Exact location?
2. What does the building look like?
3. Surface? (= about 71 hectares, or 710,000 square meters)
4. When was the project first announced?
5. How long did it take to start the building site?
6. What was necessary to start the project?
7. When was construction under way?
8. Date of completion?
9. Shape of the building?
10. What does it symbolize?
11. Original estimated cost?
12. Land cost?
13. Budget by 2011?
14. Cost when completed?
15. Apple's current worth?
16. Profit by the end of 2020?
17. What is the campus made up of?
18. Percentage of green space ?
19. Number of drought (=sécheresse) - resistant trees?
20. Type of trees in the orchard (= verger) ?
21. Length of walking and running trails?
22. Number of bikes available to commute?
23. Other facilities (= installations, équipements)?
24. Example of eco-friendly features :
25. Power generated?
26. How is the rest of the energy produced?
27. Type of ventilation? How long does it work ?
28. Height and size of the Ring ?  
(= 93,000 m2)
29. Number of staffers who can work in this office?
30. Unusual elements + size?  
(= 13.7 m)
31. Sources of light ?
32. Location of other extraordinary feature ?
33. What type of isolation has been used? Why?
34. Composition and number of isolation panels ?
35. Range of possible shifting = *movement in all directions*?  
(= 1.2 meters)

36. Other underground features?

37. Why were these amenities (= *facilities*) placed underground?

38. Other feature?

39. Feeding capacity? (**catering facility**= *service restauration, service traiteur*)

40. Other facility and previous name? Unusual feature ?

41. Height of the elevator? (= 12.8 meters)  
Unusual feature?

42. Seating capacity of auditorium?

43. Other buildings + size?

- (= 9,200 square meters)
- (= 28,000 square meters)
- 
- 

44. Details about the visitors' center?

- (920 square meters)
- (186 square meters)
- 
- 

45. What has Apple thought about with this impressive campus?

46. Any complaints? Why ?
